# How The Body Works

[KidsHealth.org/htbw](http://KidsHealth.org/htbw)

Videos, quizzes,  
activities & more!  
In Spanish, too!

## Did you know?

The bones that make up your skeleton are alive, growing and changing all the time.

The lung on the left side of your body is a bit smaller than the lung on the right. The extra space on the left leaves room for your heart.
