

Name: _____

Date: _____

Dr. Build-A-Bone's Laboratory

Instructions: Conduct some research on KidsHealth.org (check out the slideshow at KidsHealth.org/en/kids/bones.html), then label the parts of the bone, and complete the notes and other documents.

Diagram of Bone

Notes
Adult human beings have _____ bones in their bodies. We also have more than _____ muscles.

Experiments
Which substance is needed in the diet to keep bones strong?
a) Sugar
b) Calcium
c) Bonium

Results
Is cartilage important for movement?
Yes
No

These are the names of the two bones I will try to create in the lab:
