Instructions: Fill out this log for 1 week. Then, on a separate sheet, write down this information:

1. Describe how much sleep you typically get, how much energy you have, and whether you think there’s room for improvement in your sleep habits.
2. Look at the day or days when you didn’t sleep as well or lacked energy during the day. Do you see any connections between these issues and the notes in your log for that day?
3. What changes could you make to sleep better and have more energy?
